View Leaderboards Robustness Diagram

Team: Sizzling Syntax

View Leaderboard

BASIC COURSE:

On the Home Page, the User clicks the
view leaderboard button.
The System displays another screen asking
for whether the User wishes to view the global
leaderboard or the group leaderboard button.
The User clicks on the global leaderboard button,
and the System displays the Global Leaderboards Page,
where the System displays specific stats of people
around the world playing the game.
The User clicks on the 'back to Home Page'
button and is redirected to the Home Page.
The User clicks the group leaderboard button
and then the System displays the
Group Leaderboards Page.
The System displays specific stats for
the different Users in that group.
The User clicks on the 'back to
Home Page' button and the System
displays the Home Page.

ALTERNATE COURSE:

The user clicks to go back from the
view leaderboards page:
The System takes the
User back to the Home Page.

The user clicks to view the
global leaderboards
from the group leaderboards page:
The System will redirect the User to the
Global Leaderboards Page from the
Group Leaderboard Page.

The user clicks to view the group leaderboards
from the global leaderboards page:
The System will redirect the User to the
Group Leaderboard Page from the
Global Leaderboard Page.

There is an error after a specific button is clicked:
The System will display an Error Page if this was to occur.
